

Thank-you for providing opportunity to dream and hope for my life

'My name is Bipana Oli. I am 23 years old. I got to know Forward Looking's disability work via the computer training. I am so grateful that I was introduced to the organisation in a very hard time of my life. As the expenses for my treatment (paralysis) went beyond our means, my family had abandoned me. They perhaps did not have any options left. Now, I receive scholarship from the FL to live & study. I am doing very well. After completion of my studies, I have a dream to become an accountant. Thank-you for providing opportunity to dream and hope for my life.'
